FCSP Queries and Tips

Issue: Finding Missing Caregiver Employment Data

The Employment status in the Caregiver <u>Client</u> Record is a required element from the California Department of Aging (CDA).

Note: There are Employment questions in the Caregiver record, but this is NOT the employment data that's reported to the CDA.

A simple Ad-hoc query will give you the list of Caregivers that are missing Employment Data.

- 1. Single-click on the query *Clients with Service Units By Time Interval*
- 2. Click on the Ad-hoc button
- Enter the following information in the text box or copy and paste the following information: [Client Employment\Status] is null
- 4. Click the Execute button

| f Query on Clients | × |
|--------------------------------------|---------|
| Edit And Or | Execute |
| [Client Employment/Status] is null | Cancel |
| Lengue Tuble Julea reserved to trail | |
| | |
| | |
| | |
| | |
| | |

Enter info into the Agency, Start/End, Active and Funding source fields (example is for FY11-12). If your Agency doesn't automatically appear, enter this info.

| 📁 Clients with Servi | ce Units By Time Interval | - [Query] | | <u>- 🗆 x</u> |
|--|---|-----------|------------|---------------------|
| Services | | | | |
| Agencies | | | | |
| Start Date End <u>D</u> ate <u>A</u> ctive | 07/01/2011 • 06/30/2012 • Active and Inactive | | | |
| Eunding Sources | Title III E | | | |
| Sites | | | | <u></u> |
| | | | Query Clea | r <u>C</u> ancel // |

The result is a list of Caregivers that are missing the Employment Status. Now you simply need to add the Employment Data for each Caregiver on your list.

- 1. Open each client individually (double clicking on their name).
- 2. Click on the Assessments button.

| Additional Cl | ient (nfo | A <u>d</u> dress | s History | Assess | men <u>t</u> Snaps | shots | |
|---------------|----------------------|------------------|-------------------|------------------|--------------------|---------|------|
| Caregivers | Assess | <u>m</u> ents | Care <u>P</u> lan | Clinic y | <u>/</u> isits | | |
| Medical Auth | nori <u>z</u> ations | : HH <u>A</u> | A Cas | e N <u>o</u> tes | Eamily | History | Edit |

3. Double click on the Employment Data Assessment.

| Filter by snapshot type: | | • |
|------------------------------|-----------------|--------------|
| Description | Date Changed | Date Created |
| Consent/File Storage | | |
| Contacts | | |
| Custom Fields | | |
| Durable Medical Equipment | | |
| Education Data | | |
| Employment Data | | |
| Expenses Data | | |
| General/Financial Narratives | | |
| Geriatric Depression Scale | | |
| Haatth | | |

4. Click on the Edit button and then enter the correct status and then click on the Save button.

| 📁 Employr | ment Data (Asses | sment I | Form) - J | Agnew | , Barb | | x |
|----------------------------|-------------------|---------|----------------|-------|--------------|----------------|---|
| Status Business City | Declined to State | | Hours State | _ | Zip | | |
| Current Posi | | | State | CA | ¥ 2ip | | |
| Type of Wo | | | | | | | |
| History | | | | | <u>S</u> ave | <u>C</u> ancel | |

5. Continue until you have completed this information for all caregivers in your list.

Issue: Does Caregiver have a Client Record AND a Caregiver Record and is it synchronized?

Query: Service Units in a Date Range

1. Paste or enter the following information into the Ad-hoc entry area:

[Client\Caregiver (Synchronized)\Client (Synchronized)\Name] is null

- 2. Click the Execute button.
- 3. Ensure the query has your Agency selected, Title <u>OR</u> Services and Start and End date (usually beginning of fiscal year to current date or end of the previous quarter).

| 爹 Service Units in a | Date Range - [Query] | | | | _ [| |
|---|---|----------------|----------------|------------|----------------|----------|
| This report shows all within a given date ra | services unit quantities, together nge | with their cos | sts, that have | been enter | ed, and fall | |
| Agency | Sourcewise | | | | | • |
| Eunding Sources | Title III E | | | | | |
| Services | | | | | | |
| S <u>t</u> art Date | 07/01/2018 | | | | | |
| End <u>D</u> ate | 05/28/2019 | | | | | |
| Sites | | | | | | <u> </u> |
| | 1 | | | ~ 1 | | 1 |
| | | L. | Query | Clear | <u>C</u> ancel | |

The resulting list displays caregivers that are missing the Caregiver record <u>and/or</u> may not have the caregiver and client records synchronized.

Search Caregivers and if no name appears, you must create a Caregiver record, synchronize the Client and Caregiver records, then link the Caregiver record to the Care Recipient's Client Record (steps 3-5 in the *Caregiver Quick Reference* document).
